Skills

- Python
- Django
- SQL
- HTML-5
- CSS-3
- JavaScript
- Bootstrap

Objectives

I am seeking a role in a company where I can contribute my ideas and be mentored towards a successful career.

Projects

Minor Project :- Farmers welfare

Job Role :- Developer and Documentation

- The main motive behind this project is removing third party and comparing their product cost with others.
- More advantage of this project is farmers can also share their problems and also take advice from other farmers.
- Front-end HTML, CSS and JavaScript.
- Back-end Python, Django and MYSQL.

Major Project :- E-Hotel Reservation

Job Role :- Developer and Documentation

- The main aim is providing facilities according to customers choice at lower price.
- It can also manage the details of the hotels, payments, rooms, service and customers.
- Front-end HTML, CSS, JavaScript and Bootstrap.
- Back-end Python, Django and MYSQL.

Work Experience

Internship (Python/Django)

Affimintus

Dec-2022 to May-2023

- I worked with HTML, CSS, Bootstrap, JavaScript, JQuery, React, Python, Django, MYSQL and SQL in Programmers Point.
- Created website layout and user interface using HTML, CSS, Bootstrap and JavaScript and also learn work with Django Framework.
- Evaluate code to ensure that it is valid, properly structured, and is compatible with browsers.
- CSS and JavaScript development, including themes creation or customization, custom plugins development, and training.

Personal Projects

- Medical web, School Management, Tic-Tac-Toe, Snake game, Image puzzle, Responsive Website from Youtube, CodeWithHarry, Yahoobaba, E-Commerce from Geeky shows,
